Attn: Finnish water companies

We are largest government buyers of water products / services in Dubai. Our procurements related to generation, transmission and distribution of water and environment products like metering systems, pumps, valves, pipes, water network systems, house pipe fittings and connections, sanitary/drainage wares and accessories, fibre glass products, SCADA Systems, leakage detection through software and hardware technologies, desalination plants etc., up gradation/renovation techniques, water conservation such as water savers, recycling products, etc.

We are interested to have business tie up with Finnish water companies and brief about vendor registration, prequalification, tender & purchase procedures with our government body.

We also organize under the patronage of H.H. Sheikh Hamdan Bin Rashid Al Maktoum, deputy ruler of Dubai and U.A.E. finance minister, a Water & Energy Technology & Environment Exhibition (WETEX-2011) at Zabeel Hall of the Dubai International Exhibition Center, between the 8th and 10th March, 2011 (www.wetex.ae) , where the Water Authorities, other private firms worldwide and from the U.A.E would be displaying their exhibits , Government meet decision makers from GCC countries . The Exhibitors can choose and tie up with the participating successful local partners which will also be beneficial to Water companies.

We are happy to assist Finnish companies as government buyers of water products/services.

Regards,

Dawood Khan Jawahar, Senior Executive
